

LOREN DALE F. ALELIGAY

PROFILE SUMMARY

I'm an entry-level developer with hands-on experience in both software and web development. I enjoy solving real-world problems through code, learning new technologies, and working with teams to build useful, user-friendly applications. I'm eager to grow in a dynamic environment and contribute to meaningful tech projects.

EXPERIENCE

Professional Experience

February 2025 - April 2025

Frontend Developer Intern | LegionTech Inc.

- Integrated RESTful APIs for CRUD operations across multiple modules
- Implemented Context API for efficient state management
- Created reusable components based on Figma design specifications
- Optimized API calls to improve overall application performance

College Projects

2023 - May 2025

University of Cabuyao

• E-Commerce System | Frontend Developer

- Developed the frontend of a full-stack e-commerce system using Vue.js and Bootstrap

• Web-Based Stress Level Assessment System | Capstone

- Developed a system utilizing data analysis for stress level evaluation
- Integrated KNN algorithm for stress level prediction
- Designed user-friendly interface for assessment, results, and recommendation

• Coffee Shop POS System | Project

- Developed a fully functional Coffee Shop POS System, utilizing C# as the programming language. It has a simple, user-friendly interface and uses a SQL Server database for storing data securely.

EDUCATION

2021 - 2025

- Bachelor of Science in Information Technology
University of Cabuyao

2019 - 2021

- Accountancy, Business and Management (ABM)
Pulo Senior High School
